Only our imagination can limit our possibilities. Covering spaces or furniture is only a matter about our needs.

Solamente nuestra imaginación puede poner límites nuestras posibilidades. Recubrir espacios o mobiliario solo es una cuestión de nuestras necesidades.

Cleaning & maintenance

The first cleaning “after installation”.

The most important cleaning operation is performed immediately after laying the tiles. This involves the complete removal of residues and dirt from the tile placement. An inadequate or late removal of this waste can create a cementitious layer on the tile capable of absorbing all forms of dirt. This may give the impression that the tile gets dirty when the actual problem resides in the surface film of dirt which was not removed immediately after laying.

Once the grouting of the tiles is finished, it is important, while the grout is still wet, to carefully remove any excess material immediately. This can be done using a sponge and plenty of clean water, repeating this as many times as necessary. Do not perform the cleaning with metal tools, scrapers or abrasive pads. For stubborn stains, clean with alcohol and lukewarm water and rub with a clean cloth. If they do not disappear, check with the relevant technical department. Once the above mentioned washing is done, another washing should be carried out using basic or alkaline degreasing agents, as acid washing can leave stickiness on the pavement which could help retain dirt. In areas where water is calcareous, it is convenient to dry the surface, in order to prevent the deposition of carbonates which will reduce the surfaces’ gleam.

Regular maintenance

Many available cleaning products for general use can be used with our products. For daily cleaning, one can use detergents or degreasing products diluted in warm water, following each product’s instructions. It is important that the cleaner does not have oil, animal fat, or soap base. These components may leave an invisible residue whilst absorbing dirt (lime stratifications detergent or residues). It is also important that the tile receives a thorough rinsing with clean water after the cleaning process is complete. The low water absorption and high standards met by all porcelain tiles ensure a product which is easy to maintain. Our products do not require the use of sealants or waxes. These superficial coatings can really affect the performance of the tile in a negative manner.

It is important to note that hydrofluoric acid (HF) and derivatives can irreparably damage the tile. agreed

The general steps for regular cleaning of our ceramic products can be summarized as follows:

- Remove any solid or liquid waste from the tile, sweeping with a soft bristle broom or vacuuming.
- Clean up liquid spills as soon as possible with lukewarm water.
- Apply the recommended amount and dilution of the cleaner for the tile (follow the cleaner manufacturer’s instructions). The wiper must remain in the tile a minimum period of 5 minutes.

- For unpolished tiles, scrub with a nylon sponge or soft bristle brush. A floor machine equipped with a nylon pad or bristle brush can be used for heavily soiled surfaces. For polished tiles, clean with a nonabrasive cloth.
- Remove the dirty cleaning solution and water with a vacuum cleaner or cloth. Rinse the porcelain tile with clean water and remove again with a vacuum cleaner, mop or towel. It is absolutely essential that all detergent residues are removed completely from the tile. Any remaining detergent that dries on the tiles surface can form a coating that can trap dirt and be very difficult to remove. The tile should be rinsed several times to remove all detergent residues.

During use, the cleaning of the tiles should be similar to window cleaning. Ammonia and even bleach type products can be employed, but both must be diluted in water.

In case of special stains and/or particularly resistant, it is advisable to use specific detergents according to the cleaners’ manufacturer. Do not forget that removing any type of stain is easier when it is still fresh.

General conditions of sale

1. REGULATIONS FOR CONTRACTING

The general conditions of sale here detailed, except for any possible modifications or exceptions agreed in writing, shall govern all sale contracts concluded between APAVISA PORCELANICO S.L (hereinafter the Seller) and the Buyer. Any variations of the general conditions of sale, offers, transactions, credits or discounts, agreed by the Agents or other intermediaries of the Seller, will not be considered valid without the written confirmation of staff at the Seller’s Head Office.

2. PURCHASE AND SUPPLY ORDERS

Only purchase orders received in writing will be valid, these being subject to the acceptance of the Seller by Order Confirmation. The supply shall include only the services, materials and quantities specified in the Order Confirmation or in other written communications by the Seller. Should there be any differences in the request for order or Purchase Order, the Order Confirmation or pro forma invoice is to be considered the only valid document. A Partial Confirmation of the Order communicated in writing by the Seller means that the approval is partial and does not entail or imply confirmation of the rest of the requested order.

3. DELIVERY

Unless expressly agreed otherwise, the place of loading and the terms of sale of the Seller shall be indicated in the invoice and the delivery conditions will be “Ex Works” according to the INCOTERMS rules of the International Chamber of Commerce. In any case, the full responsibility for deterioration, breakage or loss of product during the loading and transportation shall be borne by the Buyer. The buyer must verify the integrity of the merchandise within a maximum period of 24 hours from receipt. Any broken or missing material communicated subsequently shall be understood as neither attributable to nor the responsibility of the Seller. The costs for the return of the merchandise due to any errors or causes beyond the responsibility or control of the Seller, shall be fully borne by the Buyer.

4. DELIVERY TERMS

The delivery term shall be agreed by the contracting parties. Provided that special clauses have not been included, the delivery term will be for information purposes only and will not be understood as mandatory or a binding condition. Any event of force majeure will interrupt the delivery term while the event lasts. If, as a result of force majeure, the contract cannot be executed within 60 days of the date agreed upon, each party shall be entitled to terminate the contract. In such case, the declaration of termination must be sent to the other party by registered letter with return receipt within 10 days from the expiry of said period of 60 days, excluding any reciprocal rights to compensation or reparation of damages suffered.

5. PRICES AND PAYMENTS

The valid price will be established by the Seller’ in the corresponding invoice. The place of Payment is set at the Seller’s registered address in Spain. Payment shall be made in the manner and the terms established by the Seller in the invoice for the sale of the merchandise. The delay in the payment of the invoices issued, even if it were partial, exceeding the agreed maturity, will immediately accrue a default interest, calculated according to the legal interest of the money calculated annually in Spain with an increase of 6 basic points. In addition, the non-payment or delay in the payment of all or part of the invoices - whatever the reason - will entitle the Seller to request the advance payment for the outstanding supplies and / or to proceed with the termination of the contract, which will release the latter from the obligation to comply with other possible contractual obligations, and will be likewise entitled to cancel the supply of other possible pending orders, without the Buyer being able to request any type of compensation from the Seller.

6. GUARANTEE

The materials supplied meet the quality requirements established in the current standards EN-14411 and UNE-EN-ISO 10545. Quality assurance is limited to first quality materials, with a maximum allowable tolerance of approximately 5% (five percent). Any guarantee in respect of defects in second or third quality materials or special sale lots is expressly excluded. Any claims for defects shall be necessarily notified by registered letter sent to the Seller’s registered office, made before the material is mounted and, in any case, within 10 days from receipt of the material. Any claims of installed material will not be accepted. Any claims for visible or hidden defects will not be valid once the material has been installed and the Guarantee will be automatically invalidated. It is the Buyer’s responsibility to check that the material is in perfect condition before installing it. The Guarantee includes only the cleaning and / or repair of material and, failing that, the return of the material with manufacturing defects, which do not comply with the current technical standards EN-14411 and UNE-EN-ISO 10545, excluding any other obligation of the Seller. The Quality Guarantee will cover any defects of the material, exclusively when these are derived from the manufacturing process. Likewise, the Seller is exempt from liability arising from any deficiencies or defects of the product due to other causes, besides the manufacturing process. Any possible claims on the material will not give the Buyer any right to interrupt or delay, totally or partially, the payment that will have to be made within the established deadlines.

7. ARBITRATION CLAUSE

Any dispute arising in respect of the product of the Seller and the guarantee thereof, including, without limitation, any damages that are not solved amicably between the parties, shall be submitted to arbitration. The arbitration proceedings will be held before an arbitrator. The arbitration proceedings will be conducted in accordance with the rules and regulations of the Court of Arbitration, located in the Chamber of Commerce of Castellón (Spain). All parties unconditionally accept the provisions of this paragraph.

8. PROHIBITION TO EXPORT

Except in the case of other specific agreements, the Buyer shall not export the materials supplied by our Company, or transfer them to any companies or individuals for the purpose of exportation.

9. VALIDITY OF GENERAL CONDITIONS OF SALE

The aforementioned general conditions of sale are an integral part of the sale agreement and to all effects are binding for the Seller and the Buyer, moreover they faithfully represent the contractual will of the parties. The Buyer declares his specific approval. The confirmation of the Order or Pro forma invoice by the Buyer, implies the acceptance of the general conditions of sale.
